INDUSTRIAL COMPRESSED AIR POWERED VACUUMS

These vacuums are specially designed for heavy duty industrial cleaning and material handling.

With no electrical or moving parts on these vacuums, you are assured to have many years of trouble-free operation.

Each Nikro Compressed Air Powered

Vacuum features a heavy duty wheel base for handling and transporting.

Efficient and economical, but also versatile, these powerful vacuums are designed to pick-up wet or dry material.

For all your vacuum needs ... Turn to Nikro and Clean-Up With Confidence.
